Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: The interview discussed the claim language for distinguishing between the prior art reference and the application, particularly the part of the envelope portion that "is folded together in a middle of the part to form a U-shaped pack". Reference Yamada discloses a pleated fold shown in Fig. 8B-VI and a natural fold in Fig. 8B-VII. The office also suggests method claims to include language to define the sequence of steps.
